Blk 156 Lot 17 Arago Street Central Bicutan Taguig City

## PROFESSIONAL EXPERIENCE

**Jr. Backend Developer (Probationary)** March 2025 - August. 2025  
Sysnet Integrators Inc.

- Maintained, refactored, and optimized the admin-monolithic API using Node.js (ES5/CommonJS).
- Maintained, refactored, and optimized the parkncharge-timeslot API using Node.js (ES5/CommonJS).
- Maintained, refactored, and optimized the parkncharge-reservations API using Node.js (ES5/CommonJS).
- Maintained, refactored, and optimized the parkncharge-qr API using Node.js (ES5/CommonJS).
- Developed and maintained the (project\_name) API using OOP principles and modern ES6 features. Implemented key functionalities including secure user authentication, guest and tenant driver registration, OTP SMS confirmation with expiration handling, ensuring safe verification and preventing code reuse. Built role-based access control with token-based middleware and integrated data validation using express-validator, enhancing code clarity, security, and maintainability.

**IT Assistant (Project Based)** June 2024 - Oct. 2024

Meatworld International Inc.

- Troubleshooting network and server issues.
- Diagnosing and repairing printers, faulty Layer 2 switches, and routers.
- Setting up access points and mesh networks.
- Proficient in using diagnostic tools and software to identify hardware issues.
- Installing and configuring basic office applications for PCs and laptops
- Managing Microsoft 365 accounts, troubleshooting SharePoint, and performing email trace through the MS 365 Admin Center.

## TECHNICAL PROFICIENCY

- Knowledgeable in Javascript & Typescript Programming
- Proficient in JavaScript libraries and frameworks, including Node.js and React.js
